BUILDING UPDATES

How to Have a GREENER Earth Day!

- Avoid plastic disposables by using a reusable water bottle, bring your own bags to the grocery store, and using plastic reusable straws.
- Volunteer to clean up a local park, the beach, or alongside the roads.
- Plant a Tree. Planting a tree is an easy way to remove carbon dioxide from the atmosphere, and a great way to counter deforestation.
- Eat local. This is a great way to support local farmers and small businesses in your community.
- Recycle what you can. Recycling is one of the easiest and best Earth Day tips. Plus, it is a great way to help the environment .
- Unplug your devices. Devices left plugged in, even when turned off, still consume power. Try unplugging your devices once fully charged.
