In an effort to maintain our LEED GOLD status, we partnered with Aero to participate in ComEd's monitoring-based commissioning program this past year. The program helps decrease building electricity usage by implementing energy conservation measures while also ensuring a comfortable working environment. As a result, we have been able to save over 1.3 million kWh of energy!

Tuesday, February 14

Join us in the lobby for a treat on Valentine's Day! More details to come.
